Certification Statement

Shipping Instruction

Received, subjected to the classification and lawfully filed tariffs in effect on the date of issue of this Bill of Lading, the property described above, in good order, except as noted (contents and condition of packages own), marked, consigned as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to the usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. See Article 11D on the reverse side hereof for definitions of U.S. Sales, and Canadian Sales, respectively. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as each party at any time interested in all or any of said property, that every service to be performed here under shall be subjected for all U.S. Sales to all the terms and conditions of Uniform Domestic Straight Bill of Lading set forth (1) in Uniform Freight Classification in effect on the date hereof, if this is rail or rail-water shipment, or (2) in the applicable motor carrier classification or tariff, if this is a motor carrier shipment and for all Canadian Sales to all the following terms and conditions: (1) approved by the Board of Transport Commissioners for Canada by general order No. T-5, dated February 1, 1986 and in effect to December 31, 1987, set forth in the Canadian Freight Classification and also available at all railway agency stations and freight offices upon request, when said goods are carried by a rail carrier; or (2) of the bill of lading of the water carrier as provided in its tariff of rules and regulations when said goods are carried by a water carrier; or (3) of the bill of lading set forth in or prescribed by the relevant tariff, classification, statutes and regulations pertaining to motor carrier's services when said goods are carried by a motor carrier; or (4) of the bill of lading described by O.C. 586-19, April 4, 1979, when the said goods originating in Quebec are to be carried by a motor carrier; (5) or approved by the Board of Transport Commissioners for Canada by general order No. T-43, set forth in the Rules for the Carriage of Express and Non-carload Freight Traffic and also available at all express and railway agency stations and express and freight offices upon request, when said goods are carried by a rail carrier and which are agreed to by the shipper and accepted for himself and his assigns. Shipper hereby certifies that it is familiar with all the terms and conditions of said bill of lading including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for itself and its assigns.

For U.S. Sales, if the shipment moves between two ports by carrier by water, the law requires that the bill of lading shall state whether it is carrier's or shipper's weight. If the shipment moves by rail, the description and weight indicated on this bill of lading are correct, subjected to verification by the individual railroad or Western Weighing Bureau, whichever has jurisdiction according to agreement.

For U.S. Sales, the paper bags used for this shipment conform to the specifications and rules set forth in the governing Rail and Motor classifications.
